Chi-Square		<-----453.29----->			<-----140.52----->					
Significance		100%*			100%*					

Comparison Groups: BCD/EFGHIJ

Independent T-Test for Means (unequal variances), Independent Z-Test for Percentages (unpooled proportions)

Uppercase letters indicate significance at the 95% level.

"*" Denotes Chi-Square where at least one cell has an expected value of less than 1
or more than 20% of the cells have an expected value of less than 5.

Table 19

DEFINITELY, OR ALREADY VOTED: If the election were being held tomorrow, which of the candidates for Mayor would you vote for? **IF ALREADY VOTED:**

Which of the candidates for Mayor did you vote for?

Base: Ottawa residents who will definitely or have already voted in the next municipal election
